Wise Employment is one of the largest employment agencies in Australia. Currently they have some 45 offices nationwide. Organisation is going through unprecedented changes and they are looking for capable individuals to gain first hand valuable experience on some of the latest technology that is going to be implemented for the first time in Australia on that scale.

Wise Employment is currently looking for students and graduates from Engineering and Telecommunication backgrounds to assist with this enormous project.

Some of the tasks that you may expect to be doing may include:

- Assisting with design and implementation of cloud computing,
- Rollout of 4G across different sites,
- VOIP
- Technical support,
- Relocation and transition of datacentres,
- Reimaging of equipment,
- Testing of equipment,
- Service wrappers,
- Android, Apple and Windows app development and testing.

Advantage would be if you have knowledge of Gamification and Agile methodologies but these are not required.

To be considered for this exciting opportunity. Please forward your cover letter, resume and academic transcript to Milan Sedoglavich at msedoglavich@mit.edu.au
